

BECAUSE YOUR PRACTICE HAS SPECIAL PATIENTS YOU NEED SPECIAL CARE IN DENTISTRY!

**Do you find that special patients disrupt your daily routine?
How long does it take to treat a patient who has a physical disability?**

Special Care in Dentistry has articles to help you treat these patients more efficiently.
If you are a general practitioner or a dental specialist who realizes the importance of these patients, you need *Special Care*.

Special Care in Dentistry, published by Special Care Dentistry is the only journal that addresses the needs of the special patient. In *Special Care*, you will find articles by leading authorities in geriatrics, hospital dentistry and those who treat persons with disabilities.

Articles include subjects such as treatment of patients who are older than 65, homebound, have a disability or multiple medical problems, or in general require special management in the dental office. Articles describe new treatment settings, homebound/portable

dentistry, access programs, education and more efficient methods of treating the special patient. All for only \$150.00 per year.

SUBSCRIBE TODAY!

Special patients are in every practice! If you want to care for your patients in a more knowledgeable manner, *Special Care* is for you!
